PRIME MINISTER KING

Order of Merit

King Given High Award

LONDON, Nov. 18.—(CP)—Prime Minister Mackenzie King of Canada, yesterday

retrieved the King membership in the Order of Merit, restricted to 24 members and the highest award His Majesty can bestow which does not carry a title.

The prime minister first Canadian to receive the honor, spent five hours with the royal family and personally gave Prince Elizabeth an invitation to visit Canada with her prospective bridegroom, Lord Philip Mountbatten, as soon as possible after the Royal Wedding Thursday.

While the Princess thanked him and hoped for the opportunity to see the Dominion she could give no date for such a visit.

The Canadian leader, who also inspected the wedding gifts at St. James' Palace, said the visit was one of the most memorable days of his life.

The Order of Merit was instituted in 1926 by King Edward VII and is a personal gift of the Sovereign.

Normally it is given to persons who have rendered "exceptional meritorious service" in the service of the crown or towards the nation.

It is made up of 24 members, including a distinguished group of artists, authors and statesmen, including Winston Churchill.

To Cut Sugar Price One Cent

OTTAWA, Nov. 18.—(CP)—A price board order will be issued shortly reducing the ceiling on sugar one cent a pound, it was learned today.

This will bring the price of sugar back to the level it held before the ceiling was raised by one cent earlier this month to meet higher world prices.

The move follows the announcement last night of eliminating one-cent-one-half cent tax on sugar.

The excise tax, collected at the refinery, has been paid entirely by the consumer, who now will benefit of the reduction.

Present price of sugar in Canada varies from nine to 10 cents a pound, and the new price will be one cent lower.

Transit Strike Ended And Street Cars Roll

VANCOUVER, Nov. 18.—(CP)—The strike's over. In Vancouver, New Westminster and Victoria yesterday, 2,850 members of the Street Railwaymen's Union (AFL), voted to end their 29-day-old, wage-hours strike against the British Columbia Electric Railway Company and to return to work on the eve of the 11th hour.

VOTING WAS 2,169 for and 680 against. The strike ended officially at 9 p.m. PST last night.

It was grand news for the more than 100,000 commuters in the three cities who, deprived of normal transport to and from work during the strike had been obliged to walk, cycle or arrange lifts.

Sweeping Tariff Slashes To Boost Dominion Exports

OTTAWA, Nov. 18.—(CP)—Sweeping tariff reductions, heralding wider export markets for Canadian goods and a lowering of Canada's barriers against imports, were announced last night by the government on the basis of international tariff agreements coming into force Jan. 1, 1948.

These cuts running up to 50 per cent for trade with the United States and sometimes amounting to elimination of individual tariffs with other countries, are embodied in agreements which Canada negotiated with 17 countries at the world trade conference held in Geneva this summer.

The effect of a broad list of products of the land, the sea, the forest, the mine and the factory which Canada both imports and exports, ranging from agricultural products to fisheries, from lumber to minerals and manufacturing goods.

The bulk of concessions by Canada, as well as those given, stemmed from her negotiations with the United States, thus opening the way for an increased flow of Canadian goods to the American market and bringing promise of a better trading balance with that nation.

In brief, the agreements mean that Canada will have no duties on 200 goods from the United States and 200 from the United Kingdom.

On the import side, the prospect is for lower-priced foreign goods, the domestic market being flooded with a variety of goods, ranging from raw materials to finished goods.

These arrangements have been completed with the following countries: United States, United Kingdom, Belgium, Luxembourg, The Netherlands, Brazil, Chile, Cuba, Czechoslovakia, France, Lebanon-Syria, Norway, the Union of South Africa, Ceylon, Egypt and Iran.

The agreements will remain in effect for three years.

While Canada and the negotiating countries have agreed to reduce tariffs, they have also agreed to the same time retained the right to impose or change individual tariffs.

“Only 36 Hours to Save Us,” Message From Stranded Seamen

HALIFAX, Nov. 18.—(CP)—“Only 36 hours left to save their lives.”

This was the message posted by radio yesterday from the United States Coast Guard cutter Evergreen to Sacred Island, Newfoundland, a northern tip where some 33 wrecked seamen fought the effects of exposure.

The sailors have been huddled in the life-losing ice for nearly two days.

Rescue attempts so far have been frustrated by rough seas and local weather and while aided by a home-chilling rain yesterday the mariners only managed to contact with the ship.

Austerity Speech

Finance Minister Douglas Abbott, who last night announced dollar control measures that mean “austerity” for Canadians.

Mr. Abbott told Canadians frankly that while the country is financially sound, it has been living beyond its means in a world top-turvy with economic life.

“The new economic measures, reminiscent of many wartime controls, become effective at midnight.”

May be effective in their ramifications on the Canadian consumer, they are aimed directly at plugging a drain which has plagued the country since last Thursday, less than a week ago.

Mr. Abbott announced flatly that there will be no depreciation of the Canadian dollar, so often rumored in the months leading up to this far-reaching economic program.

HE DECLARED ALSO that the measure now being enforced are temporary.

This is the program he announced this morning that a severe split has developed in the cabinet over question of rationing and control of shipping of Canadian live cattle to the U.S.

Hon. J. G. Gardiner, minister of agriculture, is said to be fighting the financial advisers of the government in opposition to lifting or modifying the cattle embargo in order to get more U.S. dollars.

Mr. Gardiner contends that the immediate effect would be threefold:

1. There would be an immediate rush of livestock growers to feed their animals.

2. Either the beef supply of Canada would be swallowed up by higher prices in the United States.

3. To either event, the result would be to make impossible of fulfillment Canada's meat commitments to Britain.

Much of this situation apparently depends on what Congress does with President Truman's demand to reimpose food rationing in the United States.

If such controls were reimposed, then a good deal of the argument about live cattle shipments to the U.S. might disappear.

PORT ALBERT, B.C., Nov. 18.—(CP)—Eight persons were injured and damage estimated at more than \$100,000 was caused early today when fire totally destroyed the King Edward Hotel here.

There were no known fatalities.

The 39-room, frame structure was fully booked and guests escaped in their night attire, none jumping 20 feet to the ground when the alarm was cast at 2:30 a.m.

Port Alberst is on the west coast of Vancouver Island, 130 miles north of Victoria. Its population is 7,500. The hotel was one of the best in the area and one of the earliest buildings.

For Thursday's Wedding

Elizabeth Attending Late Arrangements

By Michael O'Mara

LONDON, Nov. 18.—(CP)—Lights burned late in Buckingham Palace last night where about 150 distinguished guests attended a supper dance in honor of Princess Elizabeth and Lord Philip Mountbatten, but Thursday's royal bride was up at the usual hour today overseeing last minute arrangements for her wedding.

THE HIGHLIGHT of the Palace party was when five kings and six queens received champagne clinks in the cream-and-gold banquet hall to toast “Elizabeth and Philip.”

Both, responded to the toast.

While the guests dined, 130 staff, women at Westminster Abbey were completing preparations for the royal ceremony.

Thousands, great and humble, continued to flock into London.

In St. James' Palace today a tea party—second in two days—is scheduled and more than 3,000 guests will see a sumptuous display of wedding presents.

It was announced there will be five royal processions to the Abbey on the wedding morning.

1. MEMBERS OF THE Royal Family and foreign royal guests who are staying at Buckingham Palace today will leave for the Marquis of Milford Haven, leave Kensington Palace at 11:00 and arrive at the Abbey at 11:15.

2. Queen Mary and Lord Mountbatten will leave for the Abbey at 11:15.

3. Queen Mary and Lord Mountbatten will leave for the Abbey at 11:15.

4. The Queen, Princess Margaret and foreign sovereigns leave Buckingham Palace at 11:30 and arrive at the Abbey at 11:45.

5. The King and Princess Elizabeth leave Buckingham Palace at 11:45 and arrive at the Abbey at 12:00.

The government, moving swiftly to halt the deterioration of Canada's United States dollar reserves, last night announced sweeping restrictions on imports and pleasure travel, imposition of special excise taxes and the obtaining of a \$300,000,000 U.S. government loan.

OTTAWA, Nov. 18.—(CP) — Canadian manufacturers increasingly eager to get a chance at the huge United States market, will find some breaches in the American tariff wall in the Geneva agreements announced yesterday.

Immense New Market For Western Farmers

(Continued from Page 1)

in duty - 1 1/2 cents within the quota, 2 1/2 cents a pound above it. There is no quota on duty over the quota remaining at 1 1/2 cents a pound.

ONE IMPORTANT fact is the binding of the duty at these points - no arbitrary changes.

Canada reciprocates by equal cuts in her tariffs on similar U.S. products.

Other favorable cuts in the U.S. tariff affecting Western Canada include lamb, from 7 to 10 cents; mutton 5 to 7 1/2 cents; frozen pork 2 1/2 to 3 cents; hams 15 to 20 per cent for animals valued at less than \$10 and from 15 to 15 per cent for over \$10.

The U.S. duty on wool is reduced 25 per cent under the Australian agreement applying to all countries.

The U.S. duty on flour of 42 cents bushel, a long standing grievance - is cut in half to 21 cents; equal important, the U.S. rate of 4,000 bushels annually on wheat is abolished.

NEITHER THE INCREASED tariff quota nor the cut in the tariff on wheat are immediately effective because of the present emergency Canadian ban on live-stock exports to the U.S. and the wheat board's control of wheat exports. But the time is surely coming

when the U.S. will be an importer of wheat on a considerable scale - instead that happened during the war. With the difference in price now prevailing between the two countries, Canadian wheat would surely flow over the 21 cent tariff ceiling for the wheat board.

Both the U.S. duty as well as the U.S. internal revenue tax on lumber are cut the full fifty per cent on sawn and dressed boards, planks, etc., on fir, hemlock, spruce, size and length, and on red cedar plywood veneers (other than of birch or maple bound at 10 per cent) and free entry for wood pulp, poles, staves, etc., also is bound.

THE U.S. DUTY ON Canadian wheat flour is cut from \$1.04 to \$1.02 per barrel and the quota of 4,000,000 bushels annually is removed. The Canadian tariff on flour remains unchanged at 30 cents a barrel.

U.S. import duty on barley is cut from 10 to 7 1/2 cents; and on rye from 12 to 8 cents per bushel. Canada reciprocates by reducing import duties on coarse grains to the same level.

Canada also reduces the duty on imported corn from 10 cents a bushel to 5 cents.

CANADA HAS ALSO agreed to match her tariff imports with those of the United States as in the following: live cattle, 1 1/2 cents;

Leather-bound, gold-mounted copy of "The Colonel-in-Chief" march is to be presented to Princess Elizabeth, Lieut.-Col. A. E. Ellis, commanding officer of the Argyll and Sutherland Highlanders, Hamilton, Ont., in England, will give it to her, together with the wedding gift of the regiment, of which she is honorary colonel. The gift is a stirring silver personal jewel box. The music is held by Pipe-Major J. K. Cairns, who composed the march.

ORANGES Now will come in the year round free of duty; also dried grapes imported last year to a total of 3,000,000, grapefruit and table grapes while the duty on raisins is cut from 4 to 3 cents a pound.

In answer to questions, experts of the department of finance informed the press that there is no relation between the new tariff cuts agreed between Canada and the United States, and the present conference measures - when they will be lifted, or whether others will be imposed does not affect the trade agreements. In other words, the tariff and trade reduction cuts are a long term affair, helping in time to remedy Canada's deficit trade balance.

THE PRESENT temporary ban against Canadian livestock exports to the United States, which is over the agreement until the Canadian government decides to lift it. The same applies to control of wheat exports. And likewise, by implication, measures that the Canadian government takes to restrict exports to cope with the immediate food shortage, will override operation of the agreement.

THE UNITED STATES administration (the president) has authority to put the duty cuts into effect on the given date, January 1, next. But returns in administrative practice of the tariff have to wait the pleasure of the U.S. congressional approval. Should the U.S. congress refuse to agree to any one or more of administrative returns such as arbitrary valuations for duty purposes, that would then have to be a matter of re-negotiation between the U. S. and the other signers of the trade agreements, it was explained.

Churchill, Conservative party leader.

The announcement of the award, made in a court circular issued last night from Buckingham Palace, said:

"The Right Honorable W. L. Mackenzie King had an audience with the King and the Queen. The Right Honorable W. L. Mackenzie King subsequently had the honor of being invited to luncheon with the King and Queen."

THE PRESENTATION was made when the prime minister went to Buckingham Palace to present officially the Canadian government's wedding gifts to Princess Elizabeth.

The O.M. was bestowed in honor of the prime minister's long public service as the King's first minister in Canada. Prime Minister King received the O.M. in last January's honors' list, and the Canadian prime minister is the only two Commonwealth members of the Order, which was military and civil services.

When he called at Buckingham Palace, the prime minister was received alone by the Princess in a Palace room. He congratulated her on her forthcoming wedding and presented the gifts. Then the prime minister invited her to go to Canada with Lieut. Mountbatten whenever convenient and said that Canadians are eager to extend their welcome.

His Canadian Legion brother of honor, Canadian statesman presented her with a mink coat which she received with "deep appreciation." He also presented the Princess with an antique silver cup and said that he was acting in the name of the Canadian government and people in the presentation.

The cup is a token of the full service of antique silver which was selected by the Princess herself. It is a plain, two-handled design with a cover. The token cup was made in 1780 by Paul La-marie Huguenot, a silversmith.

Pleasure Seekers Hit By Austerity Measure

OTTAWA, Nov. 18. (CP) - Finance Minister Abbott last night announced immediate reimposition of Canadian restrictions on pleasure travel in the United States as part of this country's program to conserve American dollars.

MAIN FEATURE of the restrictions, much the same as those imposed during the war, will be the fixing of an annual return for pleasure travel of \$150 in United States currency.

Finance department officials said the move would possibly result in the saving of between \$30,000,000 and \$40,000,000 American dollars a year. Canadian pleasure spending in the United States during 1929 amounted to an estimated \$131,000,000.

Applications for any "reasonable" amount of United States funds for necessary business travel normally will be approved in cases where the applicant's employer certifies that the proposed trip is to be taken solely in his business interests.

The Foreign Exchange Control Board will consider applications where the funds needed are for travel for genuine health or educational purposes.

THE WHOLE \$150 annual allotment for pleasure travel may be applied for at one time, but any amount not spent on the trip must be forfeited.

His Canadian Legion brother of honor, Canadian statesman performed his duty for the Legion in presenting a Maple Leaf brooch from Legion members.

He read a message to Princess Elizabeth, signed by Maj.-Gen. C. B. Price, Legion Dominion president, which stated:

"A farmed good wishes for life-long happiness."

Gen. Price wrote that the brooch was a token of the main Legion wedding present of food parcels to "our brothers in arms" of the British Legion for distribution among United Kingdom ex-servicemen.

Taft Denounces Control Return

WASHINGTON, Nov. 18. (AP) - Senator Robert Taft (Rep.-Ohio) last night denounced as "a step toward a completely totalitarian nation" President Truman's proposal for a revival of partial wage, price and rationing controls.

Taft, candidate for the republican presidential nomination, took to the radio after Truman offered his proposals to congress.

"Reaction," cried Taft of the president's price and wage suggestions. He said Truman wants to "turn the clock backwards" and is advocating a return to the days of the office of price administration, the war labor board and the war production board.

"The needs of some Canadians who have occasion to cross the border frequently for visits of short duration," said board officials.

Warns of Lean Years

Says Municipalities Are Over Spending

Hon. C. E. Gerhart, minister of municipal affairs, told the municipal convention Monday afternoon that a serious situation now existed regarding a large amount of over-spending of money by municipal councils.

Interim Budget Stands-Cripps

LONDON, Nov. 18.—(CP)—Sir Stafford Cripps, making his first appearance in the House of Commons following the sensational shuffle which saw him replace Hugh Dalton as chancellor of the exchequer, said yesterday he believes the interim budget introduced by Dalton last Thursday will stand up until the annual budget is presented in April.

The budget revision, enabling taxes to be enforced immediately where desirable, was passed with a division.

Sir Stafford, minister of economic affairs, took over the exchequer after Dalton, acknowledging a "grave indication" in the closing portions of the budget address to a London parliamentary session, resigned as chancellor.

There had been widespread speculation that Sir Stafford, reported to have been in disagreement with Dalton over economic policy, might announce more drastic measures than those outlined in Dalton's interim budget. But yesterday Sir Stafford said there was an in full agreement with the proposals put forward in the interim budget.

Reach Agreement Palestine Split

LAKE SUCCESS, N.Y., Nov. 18.—(CP)—Unanimous agreement on the United Nations plan for implementing Palestine partition was finally reached last yesterday by the four-power United Nations working group.

It calls for creation of independent Jewish and Arab states, with a British mandate for next Aug. 1, 1948, and termination of the British mandate by next Aug. 1, when British troops were scheduled to have completed their withdrawal.

Delegates were jubilant at this success in the working group of the United Nations, following numerous delays and a critical deadlock there days ago.

Canada's L. B. Pearson and R. B. Bennett, who have labored patiently and tirelessly in these negotiations, came out of the final meeting beaming.

Main points in the agreed plan, which goes to the Palestine sub-committee and then the 57-member Palestine committee on the road to the general assembly for final decision:

1. The Palestine mandate shall be terminated on a date agreed to by Britain and the five-member UN Palestine commission and approved by the Security Council, but in no case not later than Aug. 1, 1948.

2. Independent Arab and Jewish states shall come into existence two months after evacuation of British forces, which would be Oct. 1, 1948.

3. The period between adoption by the general assembly of its recommendations on Palestine and the establishment of the two states shall be a transition period.

4. Administration of Palestine during this transition period will be carried out by the UN commission "which shall act in conformity with UN recommendations and the assembly under guidance of the Security Council."

It was also decided that the general assembly will meet in Geneva in 1948.

The budgetary committee by a required two-thirds majority vote of 20 to 8 approved the additional funds required of approximately \$1,000,000. This was all that was needed to settle the question of the first royal license for a theatre in England was issued in 1934.

Safety Steps

Seek More Aid In Mine Chasing

ESQUIMAULT, B.C., Nov. 18.—(CP)—The west coast of Esquimault naval base when a mine's exploded off Canada's Pacific Coast in as little as 21 minutes of the receipt of a mine warning. HMCS 124, the 40-mile motor launch assigned to mine duty, has been in the "process" of a "mine despatch" and a fully-briefed crew in search of the buried mine.

Only RCN vessels available for permanent mine-chasing and disposal duty are the 40-mile motor launch commanded by Lieut. Reg. Thurner of Victoria and manned by a crew of 10, five of whom are permanent mine duty.

The RCN's two other vessels now in commission on the Pacific coast are considered too large and too expensive to operate on permanent mine duty.

Navy officers hope that in view of the latest message they will be authorized to bring smaller craft, now in reserve at Esquimault, into commission for the task, believing resources now at their command are insufficient.

At Least 42 Dead In New Zealand Fire

CHRISTCHURCH, N.Z., Nov. 18.—(AP)—Forty-two persons were counted dead or missing today in a spectacular fire which destroyed the four-story Ballantyne Brothers department store, largest retail establishment in this south island city.

The bodies of 28, including shoppers and employees, were recovered, mostly from an area about the room. A 28th person died in a hospital. Thirteen others were listed as missing.

The cause of the fire was not determined.

Flames, who made numerous dramatic rescues, brought the blaze under control within two hours, but it still was burning as rescue workers descended and the search for victims was suspended.

Eye-witnesses said they could see the bodies of additional victims scattered among the charred debris.

The fire was heralded by a sudden burst of fire from the main pouring from the roof and windows of the upper floor. Then great sheets of flame enveloped the structure. The whole interior of the building collapsed.

The heat was so intense rescue workers were forced to curtail their search. In the street, heard the screams of the victims above the roar of the blaze.

One child was among the victims.

Italy Communists Plot Revolution

By J. EDWARD MURRAY
ROME, Nov. 18.—(AP)—Palmiro Togliatti, boss of Italy's Communist party, was reported today to have told a secret Communist gathering in Milan that "we will eventually overthrow the present government. The Communists are beaten in the election next March."

A spokesman for Premier Alcide De Gasperi's Christian Democrat party disclosed that De Gasperi has taken steps to enlarge his one-party government to include center and leftist parties, but not the Communists, who were ousted last year.

"The question can be put in the following terms: If we win the elections, our prospects will be pacific. Otherwise we will eventually pass to revolutionary action."

Togliatti was quoted as saying last night.

"This method of putting the question is absolutely abstract in all senses and does not take into consideration the general development of our action," he was said to have added.

Stray Alley Cat Wins Show Prizes

ST. LOUIS, Nov. 18.—(AP)—A stray alley cat seeking refuge from a rainstorm wandered into a hotel and won two prizes Sunday at the Greater St. Louis Cat Club show.

Storm Delay

Again in France

By LOUIS NEVIN
PARIS, Nov. 18.—(AP)—France's labor pot boiled over again today, trying up or threatening widespread action in the nationalized industry as the centre parties negotiated formation of a strong government to meet the crisis.

These were the labor events:

1. Seventy-two per cent of the country's 14,000 coal miners went on strike, with the rest expected to follow later in the day.
2. The 2,000-owned cars of the nationalized Renault automobile concern stopped work.
3. Merchant marine unions locally debated calling their second strike a month. The merchant marine likewise is nationalized.
4. The federation of all unions

J. E. Stewart, who has been elected president of the newly-formed St. Andrew's men's club, an organization functioning with in St. Andrew's Presbyterian Church. There are 31 members in the club, which met on the second Wednesday of each month. Other officers elected were honorary president, the Rev. H. Douglas Stewart, former church minister, now in Ontario; vice-president, John Beston; secretary-treasurer, Sherwood Taylor.

Post Office, Cafe Burn at Halkirk

Special to The Edmonton Bulletin
HALKIRK, Nov. 18.—A two-story post office building and a nearby pool room owned by William Knight were partially destroyed at this town, about 100 miles south-east of Edmonton, Monday night by a fire which started in the Post Office. A cafe, separated from the post office by a lot, suffered severe damage from smoke and water before the blaze was brought under control by volunteer fire-fighters. Total damage of the fire was estimated at about \$2,000.

The fire had gained considerable control before being noticed and was fanned by a strong wind, making the work of the fire brigade difficult.

Tables and fixtures of the pool hall were carried to safety before the flames had made much headway in this building, as were the contents of the cafe, owned by L. Kneeland.

An undetermined amount of mail was lost in the blaze, but a considerable amount of out-going mail had been put on the train shortly before the fire broke out.

A call for aid from Pastor J. L. Miller, was put in immediately, but the blaze had been brought under control by the time the fire trucks arrived from there.

The post office building was owned by Mrs. D. R. Collins, widow of the late postmaster here, and was covered by insurance.

Storm Delay

Again in France

By LOUIS NEVIN
PARIS, Nov. 18.—(AP)—France's labor pot boiled over again today, trying up or threatening widespread action in the nationalized industry as the centre parties negotiated formation of a strong government to meet the crisis.

These were the labor events:

1. Seventy-two per cent of the country's 14,000 coal miners went on strike, with the rest expected to follow later in the day.
2. The 2,000-owned cars of the nationalized Renault automobile concern stopped work.
3. Merchant marine unions locally debated calling their second strike a month. The merchant marine likewise is nationalized.
4. The federation of all unions

J. E. Stewart, who has been elected president of the newly-formed St. Andrew's men's club, an organization functioning with in St. Andrew's Presbyterian Church. There are 31 members in the club, which met on the second Wednesday of each month. Other officers elected were honorary president, the Rev. H. Douglas Stewart, former church minister, now in Ontario; vice-president, John Beston; secretary-treasurer, Sherwood Taylor.

Post Office, Cafe Burn at Halkirk

Special to The Edmonton Bulletin
HALKIRK, Nov. 18.—A two-story post office building and a nearby pool room owned by William Knight were partially destroyed at this town, about 100 miles south-east of Edmonton, Monday night by a fire which started in the Post Office. A cafe, separated from the post office by a lot, suffered severe damage from smoke and water before the blaze was brought under control by volunteer fire-fighters. Total damage of the fire was estimated at about \$2,000.

The fire had gained considerable control before being noticed and was fanned by a strong wind, making the work of the fire brigade difficult.

Tables and fixtures of the pool hall were carried to safety before the flames had made much headway in this building, as were the contents of the cafe, owned by L. Kneeland.

An undetermined amount of mail was lost in the blaze, but a considerable amount of out-going mail had been put on the train shortly before the fire broke out.

A call for aid from Pastor J. L. Miller, was put in immediately, but the blaze had been brought under control by the time the fire trucks arrived from there.

Bussay Sentenced To Hang Feb. 4

OWEN SOUND, Ont., Nov. 18.—(CP)—Bussay, 25-year-old illiterate cannery worker, was convicted yesterday of the hammer-murder of 11-year-old Betty Payton here Sept. 21, and was sentenced to hang Sunday.

The jury of 12 district farmers brought in the guilty verdict less than an hour after the closing of a last-minute defence plea that Bussay be found not guilty by reason of insanity. Mr. Justice J. P. Kelly, presiding at the case, pronounced sentence immediately.

Gerhart supported the appointment of J. W. Judge as the tax collector for the province, a commission as suggested by the Education Minister. The minister said it was the view of the government that one man could do the job better than three.

Mr. Justice J. W. Judge said that Mr. Judge as a civil servant was not fit to be the tax collector. He said a gift to the municipalities would do the job.

Touching on the abolition of the Western Tax, Mr. Gerhart said that "the government is not in a position to do this. It is a matter for the provinces to decide."

Why Do Men Duck Pretties for Mates

A correspondent, whose middle name is probably Miss America, wants to know why when a man goes to marry he picks out a homey girl, instead of a raving beauty for a wife. She says that in every community the plain janes are hoisting it to the stars, while the living pictures are left on the shelf. Also, she calls attention to the fact that if you will give an eye to any assemblage of wives, you will perceive that they were not married for their looks. And she wants to know why this is.

Well, there are many explanations for this phenomenon. The most obvious being the unrelenting fact that he avers by and another that he swears by. Every man in the world believes that he is a devotee of feminine beauty and that he worships at the shrine of Venus. The first question that a man asks about a strange woman does not concern her intelligence, or her disposition, or her character. It is always "Is she pretty?" and the inference is that unless she has taken a prize in a beauty show she must be a failure in a man's eyes. Her chances of getting a husband are nil.

But when it comes to marrying, that same beauty addiel will pass by all the lovelies and pick out a girl who has a single claim to puerility. Which proves the old adage that beauty is in the eye of the beholder, or maybe men have more sense than we give them credit for.

The reason that men pay lip service to beauty, yet to often pass it by when it comes to selecting a mate, is easily explained. The beauty is nearly always spoiled. She is selfish and vain and expects to be worshipped. To also, she is an expensive luxury because she has to have fine clothes to set off her good looks.

On the other hand, the homely

Don't Suffer from CHRONIC BRONCHITIS

"Several months ago, I began to suffer from a very irritating bronchial cough," writes Mrs. W. L. Loring, 25 John St., Box 111, Maple, P.Q. "I tried a number of remedies but without success. At last, I decided to try KALMID, and lo and behold, I was surprised. Instead of coughing and wheezing all night, I now sleep without coughing and am able to breathe freely."

Don't suffer needlessly from dry, tickling coughs. KALMID is the only cough medicine that is safe for all ages. It is a KALMID cough cure. It is at drug stores everywhere. K-235.

LUXED Stockings Last Twice As Long, Strain Tests Show!

It's easy to get double the wear from your stockings. Scientific strain tests show you how! Dozens of stockings were washed repeatedly in the gentle Lux way. Dozens more with a strong soap. Then all the stockings were given strain tests to see how soon they'd run. The Luxed stockings lasted more than twice as long as the others! That's just like getting an extra pair of stockings every time you buy one pair.

Nylons, rayons, silks, cottons—whether the same results. Be wise—use Lux after every washing.

Bridge By William McClelleny After every tournament there is a great deal of discussion of bridge and of course every player has his favorite. Sims Gaynor of New Rochelle, N. Y. gave me today's.

He said that he and his partner were playing the no trump point count for the first time and maybe they were a little confused about how to play. He said that he and his partner were playing the no trump point count for the first time and maybe they were a little confused about how to play.

And when a man figures out the difference between the expense of the upkeep of a beauty and that of a plain woman, who expects to be a kitchen utensil instead of a parlor ornament and how much more something it is to a man's vanity to have a wife who is always telling him how handsome and wonderful he is, instead of one who will expect him to be flattering and cajoling her, it will be easily seen why so many homely girls make good marriages.

As a matter of fact, while the good looks that come from good health, a good mind, good common sense and a good disposition are highly desirable for all women, the exotic good looks that make a girl a winner in a beauty show are often a handicap than a help. Even a girl who has a good husband, not even good jobs, for every married man has a girl who has a single claim to puerility. Which proves the old adage that beauty is in the eye of the beholder, or maybe men have more sense than we give them credit for.

Third Reduction On Some Metals

OTTAWA, Nov. 18.—(CP)—Reduction by one-third of the United States duty on aluminum metal and by 30 per cent of the duties on aluminum plates, sheet and scrap are provided for in the Geneva agreements announced today. On aluminum metal and alloy the duty goes down from three cents to 15¢, and on plates from six cents to three.

Fifty per cent reduction is made on magnesium, tantalum, cadmium and all forms except tubes and zinc sheets, scrap and dross. Free tariff entry and a 50 per cent reduction in the American internal revenue, excise tax is bound on all copper, meaning there will be no increase in these rates while the agreement is in force.

Baffling Presents

LONDON, Nov. 18.—(AP)—Like all newweds Princess Elizabeth and Lieut. Philip Mountbatten may be a little baffled by some of their wedding presents. Among those received are an ostrich egg, a shoe worn by one of Queen Victoria's ponies, and a set of knitted boots for boiled eggs.

HOW MUCH FOOD WE NEED We have learned, in previous articles, about the different kinds of food we need. We ought also to know how much of these various things are required every day.

You have probably heard of calories. You know that if a person eats too much fuel-food (sugar, starch and fat), he is taking too many calories and may become overweight. A calorie is a unit of measurement of the heat or energy the human body needs.

Of course, the figures vary in proportion to the size of the individual; but a small man requires far less food than a boy of about the same weight. Children need a quantity of food quite out of proportion to their weight, for while adults merely have to maintain

Drastic Measures Canada Must Look To Wider Horizons

LONDON, Nov. 18.—(CP)—In a broadcast over the CBC national network, the prime minister declared the emergency measures necessary in Canada would be "drastic but temporary" adjustments that should be met "courageously, competently and with confidence."

HE DECLARED the double impact of the trade agreements and the restriction action should help Canadians realize "both the strength and the vulnerability of our national position in a world terribly weakened and impoverished by six years of war and destruction."

"What Canada is obliged to do today to meet an emergency," he said, "and what our country must strive continuously to do to carry out its long-term policies, will show many to be in contradiction."

This contradiction, Mr. Bennett said, is confronting in some degree, nearly every country in the world. The new trade treaties, said Mr. King, pave the way for "full international cooperation in maintaining high levels of employment and expanding economic activity."

They opened up to Canadian exports a larger and more equal access to the markets of the world than had ever been enjoyed by Canada.

"By virtue of these larger export opportunities," he said, "it will permit us to do a better job of our work, to produce the goods that we need, to secure the highest level of real national prosperity."

"At the very moment when the goal towards which we have worked so long, we are at last coming in sight," he added, "we are unfortunately confronted with a sharp danger—what I fear we shall find to be rough and difficult ground."

"This ACTION is rendered necessary by the facts of our balance of payments position... It was precisely because Canada was compelled to take short-range measures cutting directly across her fundamental trade policies that she should keep those policies directed toward the long-range objectives of the treaties, Mr. King declared.

Canada was one of the few producing countries with capacities unimpaired by the war. She had refused to play her part in world reconstruction, and she had not hesitated to go as far as her resources would permit.

"But before we can go forward again," Mr. King said, "we must bring into balance our earnings and requirements of United States dollars."

He added these proposals would be "developed in detail" when Parliament reassembles Dec. 3, and Parliament would be asked to approve the emergency measures.

October Weather Above Average

Weather in Edmonton during October was a little warmer than usual and rainfall was a little above average, according to a monthly meteorological summary released by the department of transport yesterday.

Snowfall was negligible and the average temperature was 42.7 as compared with the usual 40.7. The warmest temperature during the month was 73.5 above on Oct. 25. Why Grow Old?

You may be a housewife and go about your work much as does Penny Singleton putting away the dishes, but do not let yourself be made a kitchen slave or walked upon as a door mat.

By Josephine Lowman
It's good to know "when you have had enough of anything." Last Sunday night at 10 p.m. I was washing dishes. My family is very cooperative about this because we have a "new for all" and all for the spirit in our home. Also, because they know that I do just about as much work outside my home as they do, but it was my turn.

I had just put the dish washing water away when I noticed that I was tired. I had been washing dishes for a long time and I was feeling a bit of a headache. I decided to stop for a moment and rest.

As long as we have youthful rest, we will throw off the yoke sooner or later, even if we have a tolerant nature. When we have lost this freshness and self-reliance, we may gain some comfort by dressing the fact up with a noble name.

To Investigate
Radio Broadcast
TORONTO, Nov. 18. (CP)—Vaughan Davis, national film board supervisor for Ontario, announced Monday that a 15-minute recorded radio broadcast based on a personal investigation of Canada under water. "It will be called back and there will be an investigation."

The program broadcast over station CKYI, Toronto, was a 15-minute recorded radio broadcast based on a personal investigation of Canada under water. "It will be called back and there will be an investigation."

The radio station was flooded with telephone calls from worried listeners, although the broadcast ended on a happy note. The announcer said in closing: "Don't be worried. This is just another Great War—nothing has happened to Canada."

Mr. Deane said that the record was placed in his hands in other parts of Canada "but not any more."

"It would be pitiful indeed if we measured out our love and understanding, our hospitality and energy in little portions, with our hands always on self-defence and personal rights. However, many of us are doing this."

"It would be pitiful indeed if we measured out our love and understanding, our hospitality and energy in little portions, with our hands always on self-defence and personal rights. However, many of us are doing this."

Mr. Deane said that the record was placed in his hands in other parts of Canada "but not any more."

Your Baby and Mine

By Myrtle Meyer Eldred

Many a mother is justified in thinking that the speediest most of the hour of her day answering question. So many of the questions children ask are above attempts at conversation with adults. They lack the courage to make declarative statements; they lack the courage to express their opinions. So they converse interrogatively.

"Mother—do you think I'll marry a rich man?" "Mother, do you suppose I'll be six feet tall when I'm grown?"

Along with these unanswerable questions there are those countless wearying questions: "Can I go out and play?" "Can Freddy come in the house?" "Can I have a piece of candy?" "Can I go to the store with the girls?" It is understandable that these are obedient children who cannot move without consulting their mothers; but it is also plain that after a lifetime of such demands the mother is too weak to answer an important question when it arises.

"It is well when such an aggressive situation has arisen, but growth for the mother to take thought on how to bring it to an end. Children have to make decisions for themselves and one way to handle such questions is to say, "What do you think?" or "What would you do?"

This is certainly a better method than merely to comment fairly on the foolishness of the questions. This is the method, too, when the child let him try to answer it. His estimate of it will change promptly. Try to satisfy his desire for conversation by introducing a subject upon which both can converse with profit; if it is nothing more demanding than opinions about the weather.

Sometimes the question is pertinent and needs an answer but is beyond the mother's capacity to answer. It is more honest and provocative of good thinking to admit it and say, "We'll look it up." Every home should have a dictionary, an encyclopedia or some medium—maybe Daddy—for answering children's questions. If not, then the nearest library will offer a helping hand. True interest and respect for the child's question will be snuffed out by a tired parent who finds it easier to say, "Oh."

Wesley Church
To Send Christmas Gift
A missionary in Madras, India, Miss Pearson, will receive a Christmas gift from the Women's Auxiliary of Wesley United Church. This was decided at a recent meeting of the auxiliary at the home of Mrs. C. McDonald.

Miss J. Hunter, Mrs. McDonald and the president, Mrs. G. MacLennan, were appointed as a nominating committee.

Mrs. B. G. Clark gave the devotion and spoke on making use of a talent. Mrs. A. E. Moore of the Women's Missionary Society gave a review of chapter five of the study book. It was decided to purchase the Book Series.

Mrs. MacLennan presided at the meeting. Lunch was served after the business meeting.

R. W. Keyserlingk of BUP To Address Canadian Club

Convenor

Mrs. T. W. Bales, who is convening a chafare dinner to be held by the Lady Aberdeen League in the Twentieth ballroom next Friday evening. Assisting her will be Mrs. R. V. Clarke, Mrs. H. I. Hill, Mrs. J. Taylor and Mrs. L. A. Wynn.

Lady Club of Edmonton held a ladies' luncheon at the Macdonald hotel Tuesday noon.

The Women's Canadian Club of Edmonton will hold a luncheon meeting at the Macdonald hotel Friday at 12:30 p.m. at which the speaker will be R. W. Keyserlingk, managing director of British United Press in Montreal, whose subject will be "Canada in This Year of Decisions".

Mr. Keyserlingk was born in St. Petersburg, Russia, the son of a commander in the Imperial Russian Navy. During the First Great War in 1916 the family moved to Vladivostok, later they had to flee to Japan when the Russian revolution broke out.

Mr. Keyserlingk attended the academy at Kobe, Japan, and later left for China. In 1925 he came to Canada and 1929 was graduated from the University of British Columbia with honors in economics. He worked for his doctor's degree at the University of Zurich and took post-graduate courses at other European universities.

For eight years Mr. Keyserlingk has been correspondent for the British United Press and United Press in various capitals of Europe, of which the last four were spent as chief European manager with headquarters in London.

He has made many trips to the continent visiting most of the European cities and on special news assignments.

Mr. Keyserlingk returned to Canada with his wife and children and lived for a time in Vancouver, British Columbia, where he is now managing director of the British United Press.

In 1946 Mr. Keyserlingk went to Europe, visiting many of the European countries. His book, "Unfinished History," has been published in London, Eng.

Competition Is Announced

University of Alberta's Banff School of Fine Arts and the Provincial Chapter of the Imperial Order Daughters of the Empire, in cooperation with the department of education, University of Alberta, and the Banff School of Fine Arts Writers' Conference, are sponsoring a creative writing competition for Alberta schools in 1944 and 1945.

The writers' conference held each year as part of the university's Banff School of Fine Arts has two major aims: to encourage the production of Alberta materials, as might be useful to creative writers, and to encourage Alberta writers to use Alberta themes and subjects.

With a view to encouraging these aims a committee representing the 1944 writers' conference approached the provincial chapter of the IODE for the purpose of securing prizes for the annual writing competition for Alberta schools in the 1944-45 term.

The plan appealed to the officers of the IODE, who agreed to provide \$400 in prizes. The officers of the provincial department of education approved of the idea and encouraged the competition.

All entries must be submitted to the director, department of education, University of Alberta, and must be mailed no later than May 15, 1945.

Delegates Hear Talks

G. A. Shoff and Jack Dawe were guest speakers when the women delegates to the convention of the Alberta Association of Municipal Districts met in the library of the Masonic Temple, Monday.

Mr. Shoff is a delegate of the New York Institute of Interior Decorating, and the topic of his discussion was Home Decoration. "You can't be too color-conscious in the matter of decorating," said Mr. Shoff. "You should decorate your home around your individual personality. If you are to be satisfied with the result. A reliable standard in choosing your wall paper is to select the predominant color in the drapes or rug and carry this color in muted shades as the 'frame' of your room."

Mr. Shoff also discussed the problem of decorating the home most economically, mentioning the newest discoveries in paints and wall paper, and the advantages of their use.

At the close of Mr. Shoff's address, he and Mr. Dawe conducted an open discussion on home decorating problems. Tea was served after the discussion.

Mrs. Vera Macdonald, chairman of the committee in charge of entertainment for the women delegates to the convention, Mrs. J. M. Wheatley and Mrs. E. W. Stuebe, presided over the evening.

U.S. Tariff Concessions

WASHINGTON, Nov. 18. — (CP) — The state department last night announced new trade agreements with 22 countries which will give tariff concessions on United States commodities exported in 1939 to the value of considerably more than \$10,000,000.

Sweeping concessions also were announced in United States tariffs affecting three-quarters of all imports and reducing the country's barrier to a level estimated unofficially as the lowest since 1913.

The reductions take effect Jan. 1 under the general trade tariff agreement signed at Geneva Oct. 30. Other tariff concessions were issued simultaneously in the capital of the other 22 countries concerned, showing the culmination of seven months of negotiations at the United States.

Of the Concessions granted to the United States, those by Canada covered by the widest range and value, the goods concerned having been exported in 1939 to the value of \$24,000,000.

The statement emphasized the value of Canadian concessions on automotive coal, fruit and vegetables, household and office equipment.

Not Retiring Says Mackenzie

VANCOUVER, Nov. 18. — (CP) — Veterans Minister Ian Mackenzie, arriving on a 10-day, semi-official visit Sunday denied recent Ottawa reports that he planned to retire. It is not my intention, at present, to retire.

Asked whether he intended to retire before the next general elections, Mr. Mackenzie said: "As the elections are not likely to take place until 1940 or 1941, I haven't given it any consideration just now. It is not my intention, at present, to retire."
